

Schedule for the Breakout Sessions

1:00 – 1:40 Breakout Session – Round One

1:40 – 1:45 Move to another Table

1:45 – 2:25 Breakout Session – Round Two

2:25 – 3:00 Reports from the Breakout Sessions
(two minutes for each table)

Toward a More Relevant State Water Plan -- Breakout Group Topics (1 of 2)

TABLE 1: How can the state water plan be relevant to tribes? (Sharon Hausam)

TABLE 2: How can state water planning be made useful (through policy guidance, methodology, modeling, data, etc.) to local and regional planning efforts? (John Brown)

TABLE 3: How can we engage the public at the regional and state levels? What kinds of outreach and education programs are available to reach people? What support exists for these efforts? (Dael Goodman and Virginie Pointeau)

TABLE 4: How can we balance water protection and economic development? What can we learn from the Dakota Access Pipeline experience? (Michael Benson)

TABLE 5: How can we involve youth in regional and state water planning? (Aaron Chavez)

TABLE 6: Does the Technical Data Platform address the needs for a defensible groundwater data base to defend its sustainability in each of the regions? (Don Diego Gonzalez)

TABLE 7: What role can the state water plan play in resolving inter-basin transfer issues? (Eileen Dodds)

Toward a More Relevant State Water Plan -- Breakout Group Topics (2 of 2)

TABLE 8: How can we promote the implementation of the state and regional water plans? What are some useful tools, like maps, etc.? (Janice Varela and Simeon Herskovitz)

TABLE 9: Should the state water plan address environmental and cultural issues, and if so how? What is the role of the Public Welfare Statement in the regional water plans? (Joaquin Baca)

TABLE 10: Making the new state water plan as useful and credible as possible (Angela Bordegaray)

TABLE 11: Making the new state water plan as useful and credible as possible (Hannah Riseley-White)

TABLE 12: Making the new state water plan as useful and credible as possible (Heather Balas)

TABLE 13: Making the new state water plan as useful and credible as possible (Kelsey Rader)
